Meaning of the Lingnan Logo

The mountain, river, trees and path illustrated in the University logo each symbolise a profound principle:

- The White Cloud Mountain depicts the highest aspiration in life;
- The Pearl River represents the wide dissemination of Lingnan education;
- The lychee trees - with ripe fruit hanging in clusters - represent the commitment to realise the precept “For God, for Country, and for Lingnan”;
- The path represents the road to the future by virtue of hard work;
- The panoramic view of the campus in the emblem ‘reminds alumni and friends of Lingnan of their loyalty wherever they may be. The red and grey colours of the emblem help nourish the sentiment; they are “blood-red and iron-grey”, symbolising loyalty and steadfastness. The red and grey reflect the Lingnan spirit, a spirit inspiring them to lay the foundations for a splendid future forever’¹.

Vision, Mission and Core Values

At Lingnan, liberal arts education is achieved through the University's broad-based curriculum, close staff-student relationship, rich residential campus life and extra-curricular activities, active community service and multi-faceted workplace experience, strong alumni and community support, and global learning opportunities.

Vision

To excel as a leading Asian liberal arts university with international recognition, distinguished by outstanding teaching, learning, scholarship and community engagement.

Mission

Lingnan University is committed to:

- providing quality whole-person education by combining the best of Chinese and Western liberal arts traditions;
- nurturing students to achieve all-round excellence and imbuing them with its core values; and
- encouraging faculty and students to contribute to society through original research and knowledge transfer.

Motto

Education for service

Core Values

A collegial community of learning and discovery for students and scholar-teachers

Lingnan aims to build a community of learning and discovery with collegial students and scholar-teachers who respect each other, keep an open mind, embrace diversity, appreciate different views, uphold academic freedom and freedom of expression, and accept responsibility for their words and deeds.

Whole-person cultivation and all-round development

Lingnan endeavours to cultivate students' whole-person and all-round growth. It encourages students to pursue independent and critical thinking, creativity and innovation, excellent communication skills including a high level of literacy, social responsibility, personal virtue, cultural accomplishment and a passion for lifelong learning.

Community engagement and social responsibility

Lingnan encourages its members to care for others, to be responsible for their own actions, to serve the local community and beyond, and to make a positive impact for the betterment of humanity.

The Lingnan spirit

The Lingnan spirit, which has flourished since Lingnan's founding in Canton (Guangzhou) in 1888 as Christian College in China, has served over the years to bond all Lingnanians together, and continues to inspire the University today. The Lingnan spirit is marked by passion, loyalty, perseverance, openness to different ideas and cultures, and a readiness to serve.

Chair Professors

Chair Professor of Economics

Professor CHENG, Leonard K

BSoSc (CUHK); MA, PhD (UC Berkeley)

Prof. Cheng became the President and Chair Professor of Economics of Lingnan University in September 2013.

After teaching at the University of Florida for 12 years, Prof. Cheng joined the HKUST Business School in 1992, where he served as Head of Economics, Associate Dean, and Director of PhD and MBA programmes before taking up the deanship from 2009 to 2013. The *Financial Times* ranked the School's joint EMBA Programme with the Kellogg School of Management of Northwestern University as the best EMBA programme in the world for four consecutive years from 2009 to 2012, and the School's own full-time MBA programme among the world's top ten for four consecutive years from 2010 to 2013. Prof. Cheng has served as an associate editor of the *Journal of International Economics* and *Pacific Economic Review*. He has been an adviser to many organisations locally and regionally. Among others, he was a member of the Broadcasting Authority (which later became part of the Communications Authority), the Provisional Minimum Wage Commission of the HKSAR Government, a Non-Executive Director of the Securities and Futures Commission (SFC) and Chairman

of SFC's Investor Education Centre. Currently, he is a member of the Competition Commission, the Economic Development Commission of the HKSAR Government and the Independent Commission on Remuneration for Members of the Executive Council and the Legislature, and Officials under the Political Appointment System of the HKSAR.

Lam Man Tsan Chair Professor of Comparative Policy

Professor MOK, Ka Ho Joshua
BA (CityU); MPhil (CUHK); PhD (LSE, London)

Prof. Mok is the Vice-President and concurrently Lam Man Tsan Chair Professor of Comparative Policy of Lingnan University. Before joining Lingnan, he was the Vice President (Research and Development) and Chair Professor of Comparative Policy of The Education University of Hong Kong, and the Associate Dean and Professor of Social Policy, Faculty of Social Sciences of The University of Hong Kong. Prior to this, Prof. Mok was appointed as the Founding Chair Professor in East Asian Studies and established the Centre for East Asian Studies at the University of Bristol, United Kingdom.

Prof. Mok is no narrow disciplinary specialist but has worked creatively across the academic worlds of sociology, political science, and public and social policy while building up his wide knowledge of China and the region. Prof. Mok completed his undergraduate studies in Public and Social Administration at the City University of Hong Kong in 1989, and received an MPhil and PhD in Sociology from The Chinese University of Hong Kong in 1991 and The London School of Economics and Political Science in 1994 respectively.

In addition, Prof. Mok has published extensively in the fields of comparative education policy, comparative development and policy studies, and social development in contemporary China and East Asia. In particular, he has contributed to the field of social change and education policy in a variety of ways, not the least of which has been his leadership and entrepreneurial approach to the organisation of the field. His recent published works have focused on comparative social development and social policy responses in the Greater China region and East Asia. He is also the founding Editor-in-Chief of the *Journal of Asian Public Policy* (London: Routledge) and *Asian Education and Development Studies* (Emerald) as well as a Book Series Editor for Routledge and Springer.

Most recently, Prof. Mok has collaborated with UCL Institute of Education in the UK to co-launch the Centre for Global Higher Education, the world's largest research centre on higher education research. Partnering with ten top universities in the UK, Australia, Asia, Ireland, the Netherlands, Prof. Mok will further promote international research collaboration at Lingnan with overseas partners.

Chair Professors

Lee Shau Kee Foundation Chair Professor of Political Science

Professor SHARMA, Shalendra
BA, MA (Simon Fraser); PhD (Toronto)

Prof. Sharma joined Lingnan in August 2013 as its Chair Professor of Political Science and was appointed as the Acting Vice-President from August 2014 to August 2015.

Prof. Sharma received his PhD in Political Science from the University of Toronto in 1992. In 1993, he joined the Department of Politics at the University of San Francisco (USF) where he has taught since. He is the author of five books. These include, *Global Financial Contagion: Building a Resilient World Economy after the Great Recession* (New York: Cambridge University Press, 2013); *China and India in the Age of Globalization* (New York: Cambridge University Press, 2009), which was the winner of the 2010 Alpha Sigma Nu Book Award – awarded by the Association of Jesuit Colleges and Universities in the United States, Canada and South Korea and the Alpha Sigma Nu Honour Society; *Achieving Economic Development in the Era of Globalization* (Routledge, 2007); *The Asian*

Financial Crisis: Meltdown, Reform and Recovery (Manchester University Press, 2003); and *Democracy and Development in India* (Lynne Rienner Publishers, 1999), which won the Choice Outstanding Academic Title for 1999. He is also the editor of *Asia in the New Millennium: Geopolitics, Security and Foreign Policy* (Institute of East Asian Studies, UC Berkeley, 2000). Prof. Sharma was the recipient of USF's University-wide Distinguished Teaching Award for 1996-97 and the University-wide Distinguished Research Award for 2002-03. During 2006-07, he was a Visiting Professor at Universiteit Leiden, the Netherlands. He has also consulted for the International Monetary Fund and the World Bank.

Chair Professor of Computing and Decision Sciences

Professor LIU, Liming

BEng, MEng (Huazhong Univ. of Sci. and Tech); PhD (Toronto)

Prof. Liu joined Lingnan as a Chair Professor in Operations Management in July 2011. Prior to joining the Faculty of Business at Lingnan University, he taught in the Department of Logistics and Maritime Studies at The Hong Kong Polytechnic University from 2006 to 2011 and at The Hong Kong University of Science and Technology from 1993 to 2006.

Prof. Liu has a wide range of research interests in logistics, supply chain management, stochastic models, and port operations and economics. Starting his academic career in queueing theory and inventory management, he is now an active researcher in supply chain management and logistics with publications in the leading journals in the fields including Management Science, Operations Research, Manufacturing and Service Management, Production and Operations Management, Transportation Research B,

Mathematics of Operations Research, European Journal of Operational Research, Queueing Systems, and Naval Research Logistics. Prof. Liu has recently been involved in both theoretical and empirical research projects in port competition and development policy and shopping economics, with publications in *Maritime Policy and Management*, and *Journal of the Transportation Research Board*. Prof. Liu has been successful in securing research funding from the Hong Kong Research Grants Council and he is currently the Principal Investigator/Project Manager of several regular research grants. He has completed two NSFC-RGC joint research projects with a team from Huazhong University of Science and Technology and a team from Shanghai Jiaotong University, respectively.

Chair Professors

Lee Wing Tat
Chair Professor of Chinese Literature

Professor CAI, Zong-qi

MA (Sun Yat-sen); MA (UMass Amherst); PhD (Princeton)

Prof. Cai joined Lingnan as a chair professor in 2013. After he received his doctorate from Princeton University, he taught at the State University of New York at Stony Brook and completed his postdoctoral work at University of Michigan at Ann Arbor before moving to the University of Illinois, Urbana-Champaign in 1993, where he has been teaching ever since.

Prof. Cai's research and teaching interests are classical Chinese poetry and poetics, literary theory, comparative literature, aesthetics, and philosophy. He is the author of *The Matrix of Lyric Transformation: Poetic Modes and Self-Presentation in Early Chinese Pentasyllabic Poetry* (Michigan, 1996), *Configurations of Comparative Poetics: Three Perspectives on Western and Chinese Literary Criticism* (Hawaii, 2002; Chinese edition published by Peking University Press in 2012), and *How to Read Chinese Poetry Workbook* (co-authored with CUI, Jie; Columbia, 2011). He has edited *A Chinese Literary Mind: Culture, Creativity, and Rhetoric in Wenxin Diaolong* (Stanford, 2001), *Chinese Aesthetics: The Ordering of Literature, the Arts, and the Universe in the Six Dynasties* (Hawaii, 2004), *How to Read Chinese Poetry: A Guided Anthology* (Columbia, 2008), *Sound and Sense of Chinese*

Poetry (Duke, 2015), and *Chinese Poetic Culture from Antiquity through the Tang* (Columbia, 2017). He has also published numerous articles in both English and Chinese on classical Chinese poetry, literary criticism, comparative literature and philosophy (For pdf files of his published works, please visit <http://zongqicai.weebly.com>).

Prof. Cai is the co-founding editor-in-chief of *Journal of Chinese Literature and Culture* (JCLC), a semi-annual journal co-hosted by Peking University and University of Illinois, Urbana-Champaign and published by Duke University Press. This journal, launched in 2014, primarily publishes research articles and essays on premodern Chinese literature and all aspects of the broader literary culture. It is committed to an international editorial vision and to promoting in-depth exchange and collaboration among scholars working in China, America, and other parts of the world.

Working with his colleagues in the Chinese Department, Prof. Cai has helped to re-launch *Lingnan Journal of Chinese Studies*, once a renowned serial publication known for its cutting-edge scholarship on Chinese traditional learning.

General Information on Research Postgraduate Studies

Introduction

Lingnan University, formerly Lingnan College, is the only liberal arts university in the HKSAR, with the longest established tradition among the local institutions of higher education. The University was incorporated on 30 July 1999 following the enactment of the Lingnan University Ordinance. Its history, however, dates back to 1888, when its forerunner, the prestigious Lingnan University in Guangzhou, China, was founded.

The University has developed its research postgraduate programmes in stages. Lingnan accepted its first batch of Master of Philosophy (MPhil) students in Social Sciences and Translation in September 1995.

In 1997, MPhil programmes in Chinese and Business were added to the portfolio. In 2000, the University launched its Doctor of Philosophy (PhD) programmes taking into account that Lingnan had successfully produced MPhil graduates and strengthened its staff profile. In the same year, as the University had staff expertise in research areas outside the disciplines of the existing programmes, the domain of its postgraduate programmes was expanded.

The degree of MPhil or PhD will be awarded by the University when a candidate has successfully completed an approved programme of supervised research, has presented a written thesis satisfying the requirements specified for that award, has successfully defended the thesis in the presence of the examiners, and has satisfied other requirements as stipulated by the University authorities.

Programmes of Studies

The University invites applications for the following research postgraduate programmes at master's and doctoral levels:

Arts : **Chinese, Cultural Studies, English, History, Philosophy, Translation, and Visual Studies;**

Business : Accounting, Decision Sciences, Finance, Information Systems Management, Insurance, International Business, Management, Marketing, and Operations Management; and

Social Sciences : **Economics, Political Science, Psychology, and Sociology and/or Social Policy.**

Both MPhil and PhD programmes lead to in-depth study in specific research areas.

The University recruits mainly full-time students. As the University Grants Committee no longer funds new part-time students, part-time students have to be self-financed.

Period of Study

Academic Year

The University academic year starts at the beginning of September and ends at the end of August in the following calendar year.

Normal Duration

The normal duration expected for the completion of an approved programme of research leading to the degree of MPhil or PhD is as follows:

| Degree | Study Mode | Normal Period |
|--------|------------|--|
| MPhil | Full-time | 2 years |
| | Part-time | 3 years |
| PhD | Full-time | 3 years (with a relevant master's degree) |
| | | 4 years (without a relevant master's degree) |
| | Part-time | 5 years (with a relevant master's degree) |
| | | 6 years (without a relevant master's degree) |

Minimum Duration

Subject to the discretion of the Postgraduate Studies Committee, the minimum period of research is as follows:

| Degree | Study Mode | Minimum Period |
|--------|------------|----------------|
| MPhil | Full-time | 18 months |
| | Part-time | 30 months |
| PhD | Full-time | 30 months |
| | Part-time | 42 months |

General Information on Research Postgraduate Studies

Maximum Duration

Exceptionally, the period of registered research may be extended to a maximum period as specified below:

| Degree | Study Mode | Maximum Period |
|--------|------------|--|
| MPhil | Full-time | 36 months |
| | Part-time | 48 months |
| PhD | Full-time | 60 months (with a relevant master's degree) |
| | | 72 months (without a relevant master's degree) |
| | Part-time | 84 months (with a relevant master's degree) |
| | | 96 months (without a relevant master's degree) |

Recognition of Previous Research Work

If a candidate has undertaken part of a research programme as a registered candidate for a research degree in a university or such other recognised institution of higher education, he/she may make an application explaining what work has been done and its relevance to the University programme. The maximum credit to be given to such work, in the event such application has been approved, shall not exceed 50% of the normal period of research.

Supervision and Progress

The Postgraduate Studies Committee under the Senate of the University administers and manages all aspects of the progress of all candidatures, with the support of the Registry.

Lingnan University's faculty includes many world-class scholars and a large number of fine up-and-coming younger academics. The University has 153 faculty from 18 countries with PhD and other advanced degrees from Cambridge, Harvard, Oxford, Princeton, Stanford, UC Berkeley, Yale, etc. The diversity of research expertise among staff means that the University can offer expert supervision in many areas, including supervision of interdisciplinary projects.

Upon admission, each MPhil student will be assigned a Supervisor (may be with one or more Co-supervisor(s) where appropriate), while a PhD student will be assigned a Chief Supervisor and at least one Co-supervisor. Supervisors will closely guide their students in the early phases of their research and thereafter will be responsible for helping them to work independently.

The student and his/her supervisor should from the outset of the MPhil/PhD study discuss and agree on a provisional thesis topic and the coursework to be taken if necessary. A student may be required to take some undergraduate/postgraduate course(s) in order to strengthen his/her academic background.

In addition to courses offered by the University, students may enrol in courses listed under a collaborative scheme established by the eight universities in Hong Kong that are offering research postgraduate programmes.

The candidature of an MPhil or a PhD student is regarded as provisional during the initial period of study. Within the initial 6 to 10 months for full-time students and 9 to 15 months for part-time students, a student must prepare an outline paper for presentation at a topic-defence seminar and submit a report on research progress for assessment of confirmation of candidature. Additional requirements may be set as necessary.

A student with his/her candidature confirmed can continue his/her research programme. He/She is required to submit annual progress reports and present his/her research findings in a seminar a few months before his/her MPhil/PhD thesis examination. He/She shall submit a thesis meeting the specified requirements and undergo an oral examination of his/her thesis by a Panel of Examiners. He/She may be required to satisfy other requirements as stipulated by the relevant University authorities.

In particular, additional requirements such as passing a candidacy examination and meeting coursework requirements have been specified for the PhD in Business programme. Details are available from the University website (www.LN.edu.hk/reg/info/pgrad/add-phdbus.php).

General Information on Research Postgraduate Studies

Residence Requirements

The University deems it important for each student to interact with his/her supervisor(s) and with peer students. A student, full-time or part-time, is required to participate in seminars and other academic activities of the University. Supervisors shall encourage and advise students to participate in activities relevant to their studies and report students' participation to the Postgraduate Studies Committee.

Full-time students are expected to be on campus during term time except for approved field trips or study conducted outside Hong Kong and approved leave of absence.

Part-time students are required to participate in seminars or other academic activities of the University on campus at least once a term.

Concurrent Registration

A full-time student of the University is not allowed to pursue simultaneously any programme at another tertiary institution without the prior permission of the University. A student in breach of this regulation is subject to having his/her studies at the University discontinued.

Financial Support

The University has endeavoured to provide research postgraduate students with financial assistance to enable them to devote full efforts to their studies and to facilitate their research studies and professional development.

Fellowships and Studentships

A full-time PhD student will normally be awarded with either a PhD Fellowship or a Postgraduate Studentship. A full-time MPhil student will normally be awarded a Postgraduate Studentship.

a) PhD Fellowships

Established by the Research Grants Council (RGC) of the Hong Kong Special Administrative Region (HKSAR) Government, the Hong Kong PhD Fellowship Scheme (HKPFS) aims at attracting the best and brightest students in the world to pursue their PhD programmes in Hong Kong's universities.

Each PhD Fellowship awardee will be provided with HK\$240,000/year (HK\$20,000/month) for a maximum period of three years.

An awardee's eligibility for the fellowship will be reviewed on an annual basis during the fellowship period. The evaluation is based on the awardee's academic performance, supervisor's evaluation, and the degree of intellectual well roundedness as assessed by the institution.

b) Postgraduate Studentships (PGSs)

PGSs are awarded to full-time MPhil/PhD students to support their daily subsistence, tuition fees and other expenses that may incur during the course of their studies. The monthly stipend for 2017-18 is HK\$16,160 for an MPhil student; HK\$16,390 for a PhD student before confirmation

of candidature; and HK\$16,720 for a PhD student after confirmation of candidature. The award is renewable on an annual basis, subject to good performance and the availability of funds. The award normally will not exceed the prescribed period of study, i.e. two academic years for MPhil students, three academic years for PhD students with a relevant master's degree and four academic years for PhD students without a relevant master's degree.

As part of the training for postgraduate degree studies, fellowship or studentship recipients are required to perform, under supervision, teaching duties and/or research support duties of up to 12 hours per week on average. However, for a PGS/Fellowship recipient who is in his/her final year of studies, the maximum duty hours is 6 hours per week on average. Please refer to the Terms and Conditions of PGSS (www.LN.edu.hk/reg/info/pgss.pdf) for details.

PhD Fellowship recipients should observe the Terms and Conditions of the HKPFS issued by the RGC. Though HKPFS awardees are not awarded PGSSs as other research postgraduate students, the Terms and Conditions of PGSSs are generally applicable to them, *inter*

alia, the teaching duties and/or research support duties, employment restriction and annual leave.

Research Postgraduate Student Conference/Field Trip Sponsorships

The Sponsorships aim to provide financial support to students for conference participation and conducting field trips.

The University deems it important to provide support to research postgraduate students in academic activities, mainly conference attendance and conducting field trips, to nurture their academic and/or professional growth. Conference attendance is an important part of their educational experience and professional development. It may also be necessary for them to conduct field trips for their research studies.

The funding limit for supporting conferences, field trips and/or other exceptionally approved academic activities is HK\$19,000 for an MPhil student, HK\$25,000 for a regular PhD student and HK\$30,000 for a PhD Fellowship awardee during his/her entire period of study at Lingnan.

General Information on Research Postgraduate Studies

Research Postgraduate Scholarships for Overseas Research Visits

In alignment with its goals on internationalisation and to enhance students' international learning experience, the University has set up the captioned Scholarships for PhD students. The Scholarships aim to encourage Lingnan students to undertake a short-term research visit at an overseas institution and to attract overseas students to come to conduct research at Lingnan for a short period of time.

Students awarded the Scholarships will go on an exchange visit for a term and up to six months normally. During the visits, students will be assigned a Co-supervisor from the host institutions and receive supervision from Supervisors from both the home and host institutions to ensure satisfactory research progress made.

Depending on the destination and duration of the visit of the Lingnan student/the country from which the overseas student is from, the amount of each Scholarship ranges from HK\$25,000 to HK\$50,000. The Scholarships are offered on a competitive basis.

Other Scholarships

In addition, research postgraduate students are also eligible for a number of scholarships, which are normally awarded based on academic merits and recommendation of the department/programme concerned.

Admission to MPhil/PhD Programmes

Admission of Students

1. The admission of a student to the University is based on academic suitability and potential for a programme. There should be no discrimination on the grounds of sex, age, race, religion, ethnic origin or physical disability or others.
2. An applicant for admission to candidature for the degree of MPhil should normally:
 - a) hold a relevant bachelor's degree with first or second class honours or at an equivalent standard awarded by a tertiary education institution recognised for this purpose by the University; **or**
 - b) have obtained an equivalent qualification; **or**
 - c) have provided satisfactory evidence of academic and professional attainment.
3. An applicant for admission to candidature for the degree of PhD should normally:
 - a) hold a master's degree awarded by a tertiary education institution recognised for this purpose by the University; **or**
 - b) hold a relevant bachelor's degree with first or second class honours or at an equivalent standard, and have registered in a programme of study for a master's degree at a recognised tertiary education institution for at least one year and have evidence of research achievement; **or**
 - c) have obtained an equivalent qualification of a) or b) above; **or**
 - d) have provided satisfactory evidence of academic and professional attainment.
4. In addition to the above, an applicant whose degree is not from a tertiary institution in Hong Kong or an English-speaking country should obtain a minimum score of 550 (paper-based test) or 213 (computer-based test) or 79 (internet-based test) in the Test of English as a Foreign Language (TOEFL), or a band score of 6.5 or above in the International English Language Testing System (IELTS), or an equivalent score in a recognised test, or an equivalent qualification to prove his/her language proficiency which will be considered on a case-by-case basis. Applicants are required to fulfil additional requirements, if any, set by the programmes to which they apply for admission.
5. For admission to Lingnan PhD programmes via the HKPFS, the RGC stipulated that for an applicant from a non-English speaking university, unless he/she provides proof that English is the language of instruction for all courses for the entrance qualification(s) of his/her proposed PhD programme(s), he/she is required to attach score results of TOEFL or IELTS in the PhD application. This requirement (mandatory submission of TOEFL/IELTS score results) can be exempted for applicants whose proposed PhD studies are specifically in non-English medium, e.g. Chinese. However, the applicants still have to meet the language requirements of the University as stipulated in paragraph 4 above.
6. The language for writing a thesis shall be determined at the time of admission. A thesis should be written in English except for candidates in the Department of Chinese or those who are otherwise approved to write their theses in Chinese or another language. An applicant who intends to write his/her thesis in a language other than English shall indicate such in the application form for admission for consideration of the relevant department.

Note: First degree graduates with proven research qualification or experience may be admitted direct to PhD studies **ONLY UNDER EXCEPTIONAL CIRCUMSTANCES**. Normally a candidate without a master's degree would not be admitted to PhD studies and he/she should register as an MPhil student in the first instance.

Admission to MPhil/PhD Programmes

Additional Admission Requirements

The following programmes have specified additional requirements:

For details, please refer to paragraph 5 of the Admission of Students section on p.21.

Admission to MPhil/PhD Programmes

Application for Admission

- Applicants who are interested in seeking admission to the MPhil programmes should apply to the University directly.
- Applicants may seek admission to the PhD programmes in two ways as follows:
 - a) Applicants may seek admission via the Hong Kong PhD Fellowship Scheme (HKPFS) established by the Research Grants Council (RGC). Successful awardees of the Scheme will be provided with a Fellowship with a monthly stipend of HK\$20,000; **or**
 - b) Applicants may apply to the University directly. Successful applicants will normally be provided with a Postgraduate Studentship (PGS) with a monthly stipend of HK\$16,390 before confirmation of candidature and HK\$16,720 after confirmation of candidature (rate subject to review).
(US\$1 = HK\$7.8)

Apply for PhD Programmes via the HKPFS

To apply for admission via the HKPFS, please login the Admission System of the RGC at www.rgc.edu.hk/hkphd from 1 September to 1 December 2017 (Hong Kong Time 12:00 noon). Each applicant will be allocated a reference number. The applicant is then required to submit a full application directly to Lingnan's electronic system at www.LN.edu.hk/admissions/applyonline on or before 3 December 2017 (Hong Kong Time 23:59) by quoting the reference number assigned to them by the RGC for verification and settle the application fee. No late application will be accepted.

The University will conduct selection of applicants for its PhD programmes and nominate those outstanding and brilliant ones for the Hong Kong PhD Fellowships. Those who are nominated but are not finally offered the Fellowship, and those not selected for nomination for the Fellowship, will be given consideration for admission as PhD students at Lingnan taking up places assigned to the University with PGS awards.

Apply for MPhil/PhD Programmes Directly

Application Period

The University invites applications from 1 November 2017 to 26 January 2018. Applications received by the Registry after the above application period will be regarded as late applications.

Late applications will be considered on an individual basis, subject to the availability of places.

Application Methods

Applicants may apply for admission by submitting an application via the Online Application System. The University reserves its rights to nullify applications for the same programme and accordingly forfeit any payments concerned.

Online applications will only be accepted upon online payment of the application fee by a Visa or MasterCard credit card; or UnionPay.

Programme Choice

An applicant is expected to submit one application indicating one programme choice. An applicant may apply for a maximum of two programmes. This restriction also applies to an applicant submitting applications in both ways, i.e. via the HKPFS and directly to the University. It is however expected that applicants will apply through either one of the two ways.

It is permissible for an applicant to apply for two PhD programmes, one via the HKPFS and one via direct admission to the University, as long as the applicant does not apply for the same programme in two ways.

The programme choice(s) cannot be changed after submission. Application for more than two programmes may lead to disqualification of all the applications concerned and any fees paid will be forfeited.

Application Fee

The application fee during the application period is HK\$200 per programme, while the late application fee is HK\$400 per programme.

The Registry will process applications only upon the settlement of requisite payment concerned.

Admission to MPhil/PhD Programmes

Procedures for Online Application

1. Access to Online Application System

An applicant may access the University's Online Application System via the Internet at www.LN.edu.hk/admissions/applyonline. Only one programme can be applied for in one application. An applicant who wishes to apply for two programmes has to submit two applications.

Application for PGS is optional. An applicant for full-time studies who wishes to apply for the award shall indicate in the application form.

2. Uploading of Research Proposals and Supporting Documents

An applicant should upload his/her detailed research proposal, one for each application.

The applicant should substantiate the qualifications entered on the application forms by uploading the following documents:

- a) a copy of the graduation certificate(s) and transcript(s) with a complete record of courses attended and examination results of his/her undergraduate studies and above; and
- b) a copy of the relevant documents, e.g. reports of GMAT/TOEFL results and certificates of professional qualifications.

HKPFS applicants are additionally required to submit the following supporting documents:

- a) a brief research plan (to describe the proposed research topic and plan) and past research experience (up to 700 words each);
- b) a vision statement of no more than 600 words;
- c) a statement of his/her own international experience of no more than 180 words; and
- d) a TOEFL/IELTS test report (for an applicant whose degree is from a non-English speaking tertiary institution. For details, please refer to paragraph 5 of the Admission of Students section on p.21).

If an applicant is selected for admission, he/she will be required to arrange for the relevant institution(s) to send directly to the University a copy of his/her official transcript(s) for the bachelor's degree(s) and above qualification(s) he/she has obtained. Furthermore, the successful applicant shall show the originals of the documents and identity documents (viz. HKID Card/Passport/Certificate of Identity) to the Registry for verification.

3. Confidential Reference

Two confidential references are required in support of an application (three confidential references are necessary in support of an application to PhD in Business programme and at least one should be an academic referee). A referee should be a person who is in a position to give evaluation of the capacity of the applicant to carry out the proposed research. The referee should return the completed form of confidential reference directly to the Registry of the University before the deadline for applications.

4. Payment of Application Fee and Acknowledgement from the University

After completing the forms and uploading supporting documents, an applicant shall settle the application fee via the online payment gateway. An application is valid and accepted only when the payment procedures are successfully completed. Only one programme can be chosen for each online application with an application fee of HK\$200 per programme (late application fee: HK\$400 per programme). An applicant who wishes to apply for two programmes shall submit two applications and make two payments.

An acknowledgement email with the application number assigned will be sent to the applicant upon each online payment transaction. The applicant should check with the Registry if he/she does not receive the acknowledgement email.

An applicant should make sure that the application submitted is complete and in order. If an application received by the University is incomplete or not in order, the University has the authority to nullify the application.

An application once submitted cannot be withdrawn and all submitted documents will not be returned. Any false or misleading information given in the forms will lead to disqualification of the application for admission to or termination of study at the University if admitted. Any fees paid will be forfeited.

5. Priority of Applications

If an applicant submits two applications to apply for two programmes, the programme chosen in the application submitted earlier will be regarded as the first choice and the one chosen in the application submitted later will be regarded as the second choice. The order of programme priority cannot be changed.

6. Plagiarism Checking

Plagiarism is not tolerated with a view to upholding a highly professional and ethical standard amongst our research postgraduate students. The University will conduct plagiarism checking on the research proposal, research plan and vision statement that applicants submitted.

Admission to MPhil/PhD Programmes

Current Final-year Undergraduate Students

Current final-year undergraduate students may also apply for admission to the MPhil programmes. They are required to submit the transcripts showing the academic results of courses they have achieved so far. Conditional offers of admission will be made if the final results are not yet confirmed.

Submission of Information Afterwards

If the results of GMAT, TOEFL, GRE or other tests/examinations are not yet available at the time of application submission, the applicant may submit the result reports afterwards. He/She should submit them as soon as they are available, preferably before mid-February 2018. For online applications, an applicant may upload the documents to the Online Application System.

[For an applicant who wishes to ask the relevant authority to send his/her result report(s) to the University, please note that the University codes for IELTS, GMAT, TOEFL and GRE are 4662, 7113, 9303 and 9303 respectively.]

Applicants should inform the Registry of any subsequent changes of their personal particulars, if any, by email or post quoting their application numbers and full names.

[The online forms are retrievable for viewing the information submitted but not for processing of changes once online payment has been made.]

Selection

All applications for admission will be considered on the basis of academic and/or professional qualifications, research topics, working experience, suitability, potential and so on.

Applicants may or may not be required to attend an interview during the course of the selection. Individual notifications will be sent to applicants who are shortlisted for interviews.

Announcement of Application Results

1. Application results of the HKPFS will be announced by April 2018 at the RGC website: www.rgc.edu.hk/hkphd.
2. The University will announce application results of MPhil/PhD programmes on 29 March 2018 in the following ways:
 - An announcement will be posted on the notice board outside the Registry of the University and in the Internet at www.LN.edu.hk/reg/info/pgrad/results.php.
 - Individual notifications will be sent to the applicants whose applications are successful.
3. Applicants who are invited to attend an interview but fail to do so, or who are offered places but fail to make payment and register by the date specified by the University will be regarded as having withdrawn from application for admission. Their places will be offered to other candidates.
4. Unsuccessful applicants will be notified in writing by September 2018.

Applicants from Outside Hong Kong

Applicants from outside Hong Kong are advised to submit their applications for admission as early as possible and should not wait until the deadline. They should make sure that they are eligible to apply for a proper visa/an entry permit to stay in Hong Kong for the entire period of study at the University. The University will act as a sponsor for non-local students and assist them in applying for visa/entry permit.

Applicants with Physical or Other Disabilities

Applicants with disabilities are assessed in accordance with the same admission criteria as those for the other applicants. It is the intention of the University to provide aid and support to students with disabilities as far as possible. Applicants are therefore invited to contact the Registry for information concerning existing facilities for disabled persons at the University. If they think necessary, they may write to the Registrar at the time of submitting their applications indicating the nature and extent of their disabilities. It is useful for the University to know in advance the nature and the degree of any disabilities so that the University can discuss with the applicants any special provisions or facilities that may be required. It should nevertheless be noted that although the University will try to give as much help as possible, there may be problems which cannot be overcome.

Research Institutes, Centres and Programmes

Pushing the boundaries of knowledge requires reaching beyond our regional boundaries. To enhance and broaden the global experiences of students and faculty, Lingnan has been actively establishing strategic collaborations with institutions worldwide. Our researchers collaborate with scholars across Asia and around the world in a wide variety of research projects with both local and international impact. **Inter-university research platforms** have been set up with local and overseas institutions to strengthen research capabilities and the learning experience of students.

In addition, the below listed Research Institutes/Centres and Programmes have been established within the University to stimulate academic research that will enrich the faculty and enhance the research productivity of the University. In this capacity, the Institutes/Centres and Programmes initiate innovative research projects, provide support to academic staff members in their research interests, and pursue research activities within the University and through external alliances that enhance high quality theoretical and applied research consistent with the mission and objectives of the University.

Fees

Tuition Fee

Tuition fees for the 2018-19 academic year are under review. The tuition fee for the 2017-18 academic year for individual full-time MPhil/PhD students is HK\$42,100, payable by two equal instalments of HK\$21,050 each. The first instalment is payable on first registration while the second one before the start of the second term. Self-financed students are required to pay twice the tuition fees for regular students, viz. HK\$84,200 and HK\$56,134 for a self-financed full-time and part-time student respectively for 2017-18.

Deposit

A deposit of HK\$600 (subject to adjustment) is payable by all students on first registration and is refundable only when a student has completed at least one academic year and, withdraws officially from the University or his/her study is discontinued by the University. A deduction will be made by the University for outstanding debts not previously settled. An application for refund of the deposit must be made within one year after a student leaves the University. Otherwise, according to the practice of the University, the full amount of the deposit or the balance left is forfeited. For students who graduate, the deposit or the balance left is not refunded but is transferred to pay part or all of the graduation fee. Where there is an unpaid account due to the University after netting off the deposit, students should fully settle the amount before graduation.

Graduation Fee

A graduation fee of HK\$600 (subject to adjustment) is payable upon approval for graduation. In accordance with the practice of the University, the full amount or the balance of the deposit paid on first registration is used to pay this graduation fee. Where the balance is insufficient to pay the entire HK\$600, a student must pay the difference before the degree is awarded.

Students' Union Membership Fees

Lingnan University Students' Union (SU) Membership Fees include an entry fee (HK\$97) and an annual fee (HK\$133), which apply to all its members. All full-time postgraduate, undergraduate and associate degree students are eligible for membership. Lingnan University Students' Union is an independent registered organisation which enjoys its own management autonomy and it is not part of the University structure. The collection of SU's membership fees by the University is a service provided by the University. All enquiries on SU membership, including payment of fees or procedures for withdrawal and refund, should be directed to SU by phone at 2454 1111 or email: stuact@LN.edu.hk or in person to its office (2/F, Amenities Building; Office Hours: 11:30 am - 5:30 pm from Monday to Friday).

Other Information

The Campus

The University campus is located in the northern part of Tuen Mun and is connected to the central business district in a 40-minute subway ride. It has a total area of about 11 hectares and consists of the following facilities:

- ◆ a main building housing the Library, the Information Technology Services Centre, the lecture theatres and an exhibition gallery;
- ◆ an administration building;
- ◆ an amenities building with a canteen, a coffee bar and a Chinese restaurant, the Students' Union offices and the Conference Centre;
- ◆ an indoor sports complex with a wide range of sporting facilities and an outdoor standard swimming pool;
- ◆ a Multi-purpose Sports Ground including a FIFA recommended artificial turf soccer field, an IAAF standard six-lane athletic track, IAAF standard field facilities and two tennis courts;
- ◆ ten student hostel blocks;
- ◆ the President's Lodge;
- ◆ the visitors' and staff quarters;
- ◆ the Auditorium building;
- ◆ a chapel;
- ◆ a mini-bank;
- ◆ covered and open car parks; and
- ◆ external landscaped areas such as a central plaza, courtyard gardens with ponds, pavilions, seats, etc.

Student Hostels

The University has ten student hostels providing a total of 2,585 residential places with 1,125 double rooms, 108 triple rooms and 11 single rooms (for research postgraduate students only). The air-conditioned rooms have LAN ports for each resident. Each floor of the hostel blocks has a lounge area, a pantry and shared lavatory/shower

facilities. Other facilities available include Wi-Fi, common rooms, study rooms, TV rooms and laundries. Each hostel has its own warden, senior tutor and tutors looking after the welfare of the residents. More information is available at www.LN.edu.hk/ssc/hostel.

Library

The Fong Sum Wood Library, occupying four floors in the Patrick Lee Wan Keung Academic Building, offers a wide range of services and facilities to support students' learning and research activities. It provides over 630 seats, 182 public workstations, and 18 individual and/or group study rooms, all with access to the Internet and campus network via wired and wireless connections.

The Library's collections include:

- ♦ over 530,000 volumes of print books;
- ♦ over 1.15 million e-books;
- ♦ over 1,160 print journals;
- ♦ 73,700 online serials;
- ♦ over 177,000 multimedia resources; and
- ♦ 271 electronic databases.

More information is available at www.library.LN.edu.hk.

Information Technology Services Centre

The Information Technology Services Centre (ITSC) provides computing, networking, Internet access, audio-visual, multimedia and information systems services to support teaching, learning, research and communication activities. Administrative systems are also developed and maintained to support student, finance, human resources and alumni functions. More information is available at www.LN.edu.hk/itsc.

Student Services

The Student Services Centre (SSC) aims to identify and cater for students' needs in support of their academic pursuit; and facilitate students' whole-person development through a wide range of services and co-curricular programmes. The University provides a residential environment on campus conducive to the intellectual and social development of students; and enhance students' leadership qualities through students' active participation in student organisations and formal representation on university committees. More information is available at www.LN.edu.hk/ssc.
